Company Profile

About Us

Al-Aqsa – Youssef Diab is a leading Egyptian company specialized in professional kitchen solutions for hotels, restaurants, hypermarkets, supermarkets, bakeries, pastry shops, ice cream parlors, and butcheries.

With a strong reputation built over years of experience, we import and implement cutting-edge, integrated kitchen systems from top international brands. Our commitment is to delivering end-to-end solutions — from custom design and consultancy, to equipment supply, installation, and technical support.

Driven by quality, performance, and customer satisfaction, Al-Aqsa has become the trusted partner for many of Egypt's top-tier foodservice establishments and is expanding its reach across the region.

Vision

To become the leading name in the Middle East and Arab region in premium hotel kitchen equipment solutions, trusted by top hotels, restaurants, hypermarket chains, and food service establishments — through our commitment to quality, innovation, and performance excellence.

Mission

At Al-Aqsa – Youssef Diab, we specialize in importing and executing integrated kitchen equipment solutions for hotels, bakeries, butchers, supermarkets, and ice cream shops. We deliver world-class solutions using the latest European technologies, tailored to each client's unique needs — from design and supply to installation, training, and after-sales service.

www.alaqskitchen.com

Why Us?

1. Proven Expertise:

With decades of hands-on experience in the professional kitchen industry, we understand every detail — from concept to completion.

2. International Partnerships:

We collaborate with world-leading brands to deliver state-of-the-art kitchen systems that meet global standards of quality and performance.

3. Tailored Solutions:

Every project is unique. Our team provides customized design, planning, and equipment selection to perfectly match your space, workflow, and budget.

4. End-to-End Service:

From consultation and design to supply, installation, and after-sales support — we handle it all, ensuring a seamless experience.

5. Commitment to Quality:

We believe that long-term success starts with uncompromising quality, reliable equipment, and exceptional customer care.

6. Trusted by the Best:

Our track record includes partnerships with Egypt's top hotels, restaurants, and foodservice brands — a testament to our reliability and excellence.

Future Projects

At Al-Aqsa – Youssef Diab, we are continuously expanding our horizons to meet the growing needs of the foodservice industry. Our upcoming projects focus on innovation, sustainability, and regional growth, ensuring we remain at the forefront of professional kitchen solutions.

1. Developing a training academy – to empower chefs, technicians, and kitchen planners with hands-on expertise.
2. Introducing eco-friendly kitchen systems – focusing on energy efficiency and sustainable technologies.
3. Strengthening digital presence – through smart tools, online consultation, and virtual design services.

Our vision is to lead the next generation of kitchen innovation — combining performance, sustainability, and customer satisfaction across every project we deliver.

modular

For 40 years in kitchens around the world
Modular specializes in the design and manufacturing of cooking systems for professional kitchens and laboratories. Modular, robust, and reliable elements, designed to offer maximum performance and create timeless kitchens.

 **MARENO**

Since 1922, we have been at the side chefs all over the world. We work with steel to make our kitchens solid and reliable. Mareno, kitchens for life.

www.alaqskitchen.com

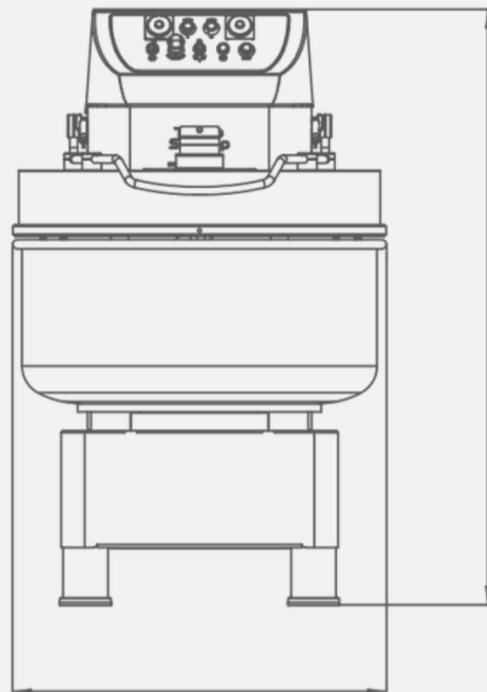

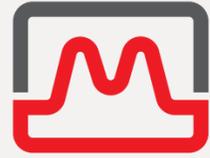

FOUNDED IN 1946 BY THE HOMONYMOUS FAMILY, FORNI FIORINI HAS IMMEDIATELY ESTABLISHED ITSELF AS A LEADING COMPANY IN THE MANUFACTURING OF BAKERY AND PASTRY OVENS BUILT WITH THE CARE AND ATTENTION THAT DISTINGUISH SOME CRAFT ENTERPRISES AND WITH THE CERTAINTY OF SUPPLYING PRODUCTS DESIGNED TO LAST OVER TIME.

Tekno Stamap

Founded in 1982 by Antonio Baldovin and Remigio Dante, Tekno Stamap straightaway stood out in the market of mechanical equipment for the food industry; over the years, it has enriched its offer with dough sheeters (manual or automatic) and planetary mixers, still today constituting the core of the company's production. More recently, our range of products has been further integrated with croissant machines and make-up lines for bread, pizza and pastries. This is what allows us to provide our final clients (mainly resellers and producers from large restaurant services) with the dough-processing equipment required by their activities.

MECNOSUD

Innovation and Italian Quality

The experience of over forty years of the Ingrisano family in mechanical constructions applied to the food industry makes Mecnosud one of the leading companies in the field of kneading machines for white art.

A modern factory equipped with the most advanced technologies, the internal management of the entire production cycle and the attention to product quality and customer service which are the basis of the company's success in the main national and international markets.

Founded in 1998, KROMO is one of the leading companies in the sector of professional warewashers and dishwashers, with sales in more than 120 countries. The company develops, manufactures, sells and services a comprehensive range of commercial dishwashers, with an increasing attention to customer operating costs, sustainability and technology.

The KROMO range, the widest in the industry, includes under-counter and hood-type models, potwashers as well as rack and flight-type machines, all tailored to the needs of institutional and commercial foodservice customers.

Moreover, the brand developed innovative and unique products such as the Wash & Store, vertical dishwasher, the multipatented granules machine and the brand new bottle washer.

The new slogan YOUR SMART WASH embodies the company evolution towards a constant search for innovation, performance and hygiene.

DIHR

Founded in 1985 in Castelfranco Veneto, Italy, DIHR is a leading manufacturer of glass, dish and warewashing machines for commercial applications. DIHR develops, produces and distributes a comprehensive range of dishwashing equipment in over 120 countries. In its high-tech plant, DIHR covers the complete manufacturing process, from the stainless steel cutting and fabrication to final product assembly.

Fimar is the first brand born within the group in 1979 from an idea of its founder Oriano Tamburini who, after several years working with his father-in-law in a small precision workshop for third parties, decided to found a new company for the production of food preparation machinery.

innovators since 1985

an italian story, an international vision Ice-making has been our business since 1985. Doing it with care and attention to detail is our mission. Always and promptly finding the best solution to customer requests is our strength.

In 1963, post-war Italy was flourishing economically, providing the perfect setting for the establishment of our first company, Comenda, a warewasher manufacturer. This era of growth led to a surge in new restaurants, driving a demand for fast and efficient warewashing machines.

Donper Refrigerator Compressor

Donper Refrigerator Compressor has built production bases in Huangshi, Anhui, Jiangsu, etc. in China.

The compressor factory was established in 1966 and has a history of 56 years.

Consecutive honor of China's top 500 manufacturing industrie Listed company

More than 200 varieties of compressors Annual production capacity of 28 million units

Donper cooperates with brands such as SIEMENS, Whirlpool, Haier, Hisense, Gree, Midea, Meiling, etc.

robot coupe

Robot-Coupe has designed, developed and manufactured food preparation equipment in France since 1961. Within a few decades, the brand developed its expertise in kitchens around the world. Some models have become major best-sellers, making Robot-Coupe an undisputed leader.

-

was founded in 1983, initially manufacturing telephone sets as well as designing and manufacturing electronic PCB controllers for some large international companies. As the company insisted on high quality, many customers said: “The telephone set that Taistar made 40 years ago is still being used on my desk

Magister

Sistema Caffè

started its activities in July 1997.

The ambitious goal is to establish itself internationally through an extremely advanced know-how.

Instead of just assembling components, Magister builds its machines upon extremely accurate design studies, by investing heavily in the research and development.

LA CIBALI

In 1945 LaCimbali launches Albadoro, a machine with two independent vertical boilers that can feature from 3 to 6 coffee groups, for the first time positioned at the front of the machine, and the cup-warmer. Positioning the coffee groups at the machine front makes working more ergonomic: you no longer need to move around the machine to work.

TECNODOM[®] spa

When I was 18 years and 3 days old, I opened my first company, DGD (the first two letters were my initials).

The equipment consisted of a drill press and a compressor, which I had bought by selling my first motorcycle: a Laverda 125 (I still remember the licence plate).

To start producing the first refrigerated counters for 3 foreign customers I took out an 80 million lease and bought a bending and shearing press. We still have that press in Tecnodom, it is still working and I use it when I make my prototypes.

We have been operating in the fields of professional refrigeration, refrigerators, neutral equipment and cooking systems for the catering industry for nearly 50 years.

es SYSTEM K

Middle East & Africa

This year will mark 30 years since ES SYSTEM K was founded, since the first cutting of sheet metal was made on Wrzosowa Street so that the first products with the ES SYSTEM K brand could go out into the world. And it wasn't always refrigeration equipment, but we'll talk about that periodically - in the next installments of our timeline: 30 years - respecting tomorrow. We start with a humble engineer who, despite the many patents to his credit, usually introduced himself as: Locksmith.

AUCMA
澳柯玛

Since its inception, Aucma has attached great importance to the construction of corporate culture and the shaping of brand image. In 1989, it carefully designed the corporate logo and registered it as a trademark. The logo (trademark) is a combination of "Aucma", "aucma" in Chinese and English, and two dolphins soaring into the sky.

Founded in 1947, ROLLER GRILL INTERNATIONAL is the European leader in the production of professional cooking and refrigeration equipment with the widest range of kitchen equipment: infrared toasters, multifunction ovens, deep fat fryers, bain-maries, heated display cases, refrigerated display cabinets, contact-grills, griddles or plancha grills, induction hobs, crepe makers, waffle irons, stoves, salamanders, smokers, gyros and kebab grills, rotisseries, chilled fountains, buffets etc. All Roller Grill products are made in FRANCE, innovative, with high quality level and the best value for money !

LG

About LG

We wish to maintain our hard-earned reputation for bringing added value to the lives of consumers.

TCL

Founded in 1981, TCL originated as one of China's first joint ventures, TTK Household Appliances (Huizhou) Co., Ltd. In 2019, TCL completed an asset restructuring that resulted in its split into TCL Technology Group Corporation (hereinafter referred to as "TCL Technology") and TCL Industries Holdings Co., Ltd. (hereinafter referred to as "TCL Industries"). TCL Technology has accelerated its transformation into a technology and capital-intensive high-tech industrial group. Today, TCL Technology has become a technology industrial group with multiple business segments, including semiconductor displays and renewable energy photovoltaics.

M. Abu Haltam Group for Investments

Mohammed Abu Haltam Investment Group is now considered a major industrial landmark that stands as a testament to a remarkable success story. From a small trading company, it has grown into a large industrial complex employing hundreds of workers and producing tens of thousands of electrical appliances annually, sold locally and exported to more than ten countries.

We deliver top-quality equipment from the world's most trusted brands.
